SAM4S

SPS2000 Product Guide

Target Market

The SPS-2000 delivers features and high performance from an attractive, stable touch screen solution.

The elegant appearance and high performance of the SPS-2000 will satisfy the high demands of today's customers.

With convenient Retail and Hospitality features, the SPS-2000 is the perfect choice for many different applications, while remaining flexible and easy to use.

SPS2000 Product Guide

Best Feature

High Performance Memory

The SPS-2000 comes with 64MB standard SCRAM and 64MB NAND on-Board flash memory. Memory can be flexibly allocated to support large menus, check files, custom reports and employee time/attendance files.

12.1 XGA Touch Screen TFT LCD Monitor

The SPS-2000 provides more vivid color with high resolution (1024*768). The super-bright TFT LCD touch screen can be viewed from almost any angle and the monitor angle is adjustable from 22 to 77.

Quick PLU Registration

A quick way to program groups:

- P mode, select PLU / PLU Quick registration
- Touch GROUP button
- Set descriptors for groups

The screenshot shows the 'PLU QUICK REGIST PROGRAM' interface. At the top, there are buttons for 'GROUP' and 'PLU'. To the right are buttons for 'ADD', 'DEL', 'STS GRP', and 'STOCK'. Below these buttons is a table with columns: 'GROUP', 'PLU#', 'DESCRIPTOR', 'STOCK', 'KP', and 'PRICE'. On the left side of the table, a list of groups is displayed: GROUP1, GROUP2, GROUP3, GROUP4, GROUP5, GROUP6, GROUP7, GROUP8, GROUP9, GROUP10, GROUP11, GROUP12, GROUP13, GROUP14, GROUP15, and GROUP16. Below this list are two arrow buttons (up and down). At the bottom of the screen, there are three buttons: an up arrow, a down arrow, and a 'CLOSE' button.
